EXECUTIVE OVERVIEW: THE "1-DAY OPD" SUBSCRIPTION ANCHOR

In Tier-2/3 Indian cities (e.g. Hanamkonda & Kazipet), a GP earns Rs 8,000-Rs 18,000/day and a Specialist earns Rs 15,000-Rs 35,000/day. Model A is priced so the ENTIRE annual software fee is less than 1 single day of outpatient consultations. Combined with sub-0.02% database duty cycles and client-side jsPDF rendering, this model delivers an unprecedented 89% to 95% net operating margin.

1. ADOPTED COMMERCIAL SUBSCRIPTION TIERS (MODEL A)

Series-A ready regional leader

2,000 Clinics (South India)

Rs 2.32 Crores ARR

Rs 18.0 Cr - Rs 25.0 Cr

High-margin vertical SaaS exit potential

CRITICAL COMMERCIAL ADVANTAGES:

1. Negative Working Capital: Annual upfront payments provide 100% upfront liquidity with zero debt or credit exposure.
2. Pure Operating Leverage: Cloud COGS remains under 7% across all scale tiers because client browsers handle PDF generation.
