

 **SRiX INCUBATOR • SISFS PHASE 1 COMPLETED**

RxNXT CLOUD

Accelerating Indian Outpatient Clinics with Fast Under 30-Second Prescriptions, Direct Meta WhatsApp Care & Live NMC Medical License Verification.

PHASE 1 GRANT COMPLETED

₹7.0 Lakhs (SISFS)

PHASE 2 TARGET ASK

₹50.0 Lakhs (Debt/CCD)

HOST INCUBATOR

SRiX (Warangal/Hyd)

The Critical Bottlenecks Crippling Indian Outpatient Clinics

Over 80% of India's 1.3M+ registered doctors operate standalone private OPD practices with acute administrative friction.

Clinical Documentation

3 to 5 minutes wasted per patient typing into clunky legacy hospital software or illegibly scribbling on paper slips.

- ✓ Causes doctor fatigue during peak 50+ patient footfall.
- ✓ Leads to frequent dispensing mistakes by pharmacists.
- ✓ Doctors abandon digital EMRs due to typing friction.

Severe Patient Non-Adherence

Over 45% of acute patients forget dosage schedules or abandon antibiotic courses once initial fever drops.

- ✓ Paper slips get misplaced or water-damaged.
- ✓ Zero automated reminders for Morning/Night doses.
- ✓ Chronic diabetes/BP patients miss regular refills.

Regulatory Risk & Fraud

Spike in unqualified quacks writing illegal Schedule X/Narcotics without verified Medical Council credentials.

- ✓ Government bodies (NMC) enforcing stricter audits.
- ✓ No real-time license verification in conventional software.
- ✓ Growing clinic liability in telemedicine prescribing.

An Ultra-Fast, Zero-Bloat Clinical Operating System

Engineered to deliver complete digital prescriptions in under 30 seconds with 100% automated post-consultation care.

⚡ Fast Under 30-Second Prescribing

- ✓ **Additive Scoring Search:** Exact alias match (+100 pts), doctor favorite (+50 pts), and clinic favorite (+20 pts).
- ✓ **1-Click Quick Chips:** Dosage, duration, and food timings selected in 1 tap (1-0-1, 5 days, After meals).
- ✓ **Protocol Packs:** 1-click loading of entire treatment sets (e.g. "Viral Fever Protocol").
- ✓ **1-Click Cloning:** Re-prescribes previous regimens for returning chronic patients in 2 seconds.

💬 Direct Meta WhatsApp Automation

- ✓ **Zero Microservices:** Direct enterprise integration with Meta WhatsApp Cloud API (Graph API v20.0).
- ✓ **Official PDF Delivery:** Converts prescription into base64 and uploads directly to Meta Media endpoint.
- ✓ **Smart Slot Nudges:** Automated daily 3-slot schedules (8 AM, 1 PM, 8:30 PM) based on food instructions.
- ✓ **Day-25 Refill Alerts:** Proactive monthly reminder for chronic diabetic and hypertension care.

🛡️ Live Government NMC Verification

- ✓ **Direct NMC REST API:** Live verification against National Medical Commission & 24+ State Medical Councils in ~0.4s.
- ✓ **Mandatory Gating:** Workspace creation blocked until government credentials confirm legitimate doctor status.
- ✓ **Tamper-Proof Profiles:** Official registered name, degrees (MBBS/MD), and council year auto-locked.

📄 Zero-Server-Cost PDF Engine

- ✓ **Client-Side Compilation:** Prescriptions compile in the doctor's web browser using jsPDF.
- ✓ **Zero Server CPU Load:** 5,000 doctors generating PDFs at the exact same second consumes 0 server compute.
- ✓ **Clinic Customization:** Dynamic letterhead with clinic logo and doctor's verified digital signature.

100% Delivery of Phase 1 Grant Objectives

How the initial ₹7.0 Lakhs SISFS grant was deployed to transform a prototype into a production cloud architecture.

v20.0

META CLOUD API

PHASE 1 DELIVERABLE	STATUS	TECHNICAL & OPERATIONAL OUTCOME
Cloud DB Migration	COMPLETED	Migrated from local SQLite to Supabase Mumbai Cloud PostgreSQL (ap-south-1) with Prisma connection pooling.
NMC Government Verification	COMPLETED	Live zero-cost REST query covering NMC + all 24+ Indian State Councils. Mandatory registration gate.
Meta WhatsApp Architecture	COMPLETED	Direct Graph API integration; eliminated Render microservice and third-party scrapers. Zero cold starts.
Receptionist Queue Sync	COMPLETED	Real-time live queue connecting reception to doctor workspace with auto-resetting intake forms.
Progressive Web App (PWA)	COMPLETED	Installable mobile PWA with thumb-accessible sticky footer for fast smartphone prescribing.

Unbeatable High-Margin SaaS Architecture (75%–80% Gross Margin)

Priced for rapid Indian OPD adoption with near-zero marginal cost of hosting.

🏷️ Strategic 3-Tier Pricing Model

From RxNXT_Strategic_Pricing_Masterplan.md:

- ✓ **Tier 1 (SaaS BYOD): ₹9,999 / year** (~₹833/mo) for solo clinic practitioners.
- ✓ **Tier 2 (Hardware Bundle): ₹24,999 One-Time** (Includes dedicated 11-inch Android Kiosk tablet + 1-year SaaS).
- ✓ **Tier 3 (Polyclinic Pack): ₹18,000 / year** for 2 to 4 doctor polyclinics.

💡 *The 2-Patient Pitch: Writing 3 prescriptions pays for the software for the month. The remaining 500+ are 100% pure profit.*

🇮🇳 Single-Clinic Monthly Cost Breakdown

COMPONENT	MONTHLY COST
Allocated Serverless API (Vercel Pro)	~₹60 / mo
Allocated PostgreSQL DB (Supabase Pro)	~₹75 / mo
Meta WhatsApp Utility API (~600 msgs @ ₹0.13)	~₹78 / mo
Client-Side PDF Generation (jsPDF)	₹0 / mo
TOTAL HOSTING COST TO SERVE 1 CLINIC	~₹213 / month
NET MONTHLY PROFIT PER CLINIC (from ₹833)	₹620 / mo (74.4% Margin)

Deployment of the ₹50 Lakhs Seed Expansion Capital

An 18-month commercial runway focused on clinic acquisition across Telangana and Andhra Pradesh.

₹20.0 Lakhs (40%)

Clinical Sales & Expansion

✓

Field sales reps in Hyderabad & Warangal.

✓

Onboarding 150–200 paying clinics.

✓

Doctor CME sponsorships & demo kiosks.

₹15.0 Lakhs (30%)

Product & AI Roadmap

✓

In-clinic Pharmacy stock deduction.

✓

WhatsApp UPI / Razorpay payment links.

✓

AI Drug-Drug Interaction warnings.

₹8.0 Lakhs (16%)

ABDM & Compliance

✓

Ayushman Bharat Digital Mission (M1/M2).

✓

ABHA ID creation for patients.

✓

HIPAA & ISO-27001 data compliance audits.

₹7.0 Lakhs (14%)

Runway & Operations

✓

18-month serverless cloud hosting.

✓

Meta enterprise WABA volume deposits.

✓

Customer support desk & legal.

Target Runway Milestone:

Reach 200 Paying Clinics by Month 12 → ₹20,00,000 Annual Recurring Revenue (ARR).

Cashflow Positive by Month 14

12-Month Operational Milestones & Traction Trajectory

Clear, measurable operational quarterly gates from 10 pilot clinics to 200 commercial deployments.

Q1 • MONTHS 1-3

Pilot Lock-In

- ✓ **30 Active Clinics** in Warangal & Hyderabad.
- ✓ **₹3.0 Lakhs** in pilot / annual subscription billing.
- ✓ Meta Tier 2 verification (10,000 msgs/day).
- ✓ Doctor feedback NPS > 70.

Q2 • MONTHS 4-6

Commercial Scaling

- ✓ **75 Active Clinics** across Telangana.
- ✓ **₹7.5 Lakhs ARR** run rate.
- ✓ Launch Clinic Pharmacy Module.
- ✓ Deploy WhatsApp UPI billing links.

Q3 • MONTHS 7-9

Regional Expansion

- ✓ **130 Active Clinics** (Enter Andhra Pradesh).
- ✓ **₹13.0 Lakhs ARR** run rate.
- ✓ Full ABDM M1/M2 integration.
- ✓ AI prescription suggestion engine.

Q4 • MONTHS 10-12

Series Pre-A Round

- ✓ **200+ Active Clinics.**
- ✓ **₹20.0 Lakhs ARR** baseline.
- ✓ > 150,000 patient prescriptions/mo.
- ✓ Open ₹2.5 Cr Pre-A institutional round.

The 30-Day Action Plan to Unlock the ₹50L Funding

The exact steps to package existing product excellence into indisputable committee traction proof.

Step 1: Onboard 10-15 Doctors

Timeline: Days 1 – 14

- ✓ Deploy RxNXT into 10–15 private clinics in Warangal & Hyderabad.
- ✓ Leverage SRiX clinical network and local doctor associations (IMA).
- ✓ Ensure each doctor writes 15–25 prescriptions daily.

Step 2: Extract Traction Proof

Timeline: Days 15 – 22

- ✓ Pull database analytics: Total prescriptions generated (5,000+).
- ✓ Measure average prescribing speed: Under 32 seconds verified.
- ✓ Meta WhatsApp delivery rates: >94% successful delivery.
- ✓ Record 3 video testimonials from senior practitioners.

Step 3: Secure 3-5 Paid LOIs

Timeline: Days 23 – 30

- ✓ Collect 3 to 5 signed Letters of Intent (LOIs) or paid pilot cheques.
- ✓ Present traction report to SRiX Incubator Review Board.
- ✓ Formally submit SISFS Component 2 / DST NIDHI-SSS application.

 **Funding Route 1:** SISFS Component 2 (SRiX Incubator Portal)

 **Funding Route 2:** DST NIDHI-SSS Seed Support

 **Funding Route 3:** BIRAC BIG / Angel Syndicates

READY FOR SCALE

Let's Transform Indian OPD Care

RxNXT combines sub-30-second prescribing speed with zero-cost client-side architecture, regulatory-grade doctor verification, and an automated WhatsApp patient retention loop.
